PURPOSE The purpose of St. Stephen Extension Center Program is to provide the best possible environment for children between the time school is dismissed until they can join their parents in the home. While the school is a formal learning setting the Extension Program is more informal, providing a balance between structure and freedom. The children's needs and interests are central in the design of the after school activities.

TIME St. Stephen School Extension Program begins from school dismissal until 5:50 p.m. each day that school is in session. The Extension Center is closed the day before Thanksgiving, the day we dismiss for Christmas vacation, the day we dismiss for Easter vacation and the last day of school.

SCHEDULE The afternoon schedule will include supervised play, nutritional snack, homework-study time and quiet game period. Afternoon activities are both structured and unstructured. On minimum days there is the opportunity to view a VCR showing of a movie.

If you wish your child/children to participate in the program, you may obtain an application from the school office.
